

Supporting Documents Policy on Social and Environmental Responsibility Greenhouse Gas Emissions	Document Code: GN-CSO-026	
	Effective Date: 23/07/2024	
	Amendment No. 00	Page 1/2

Unique Plastic Industry Public Company Limited and its subsidiaries (“**the Company**”) recognize the importance of global warming and greenhouse gas (GHG) emissions, which are primarily caused by carbon dioxide (CO₂) emissions. These emissions contribute to climate change, rising global surface temperatures, and increasingly severe natural disasters, all of which affect the quality of life and well-being of people today. The Company recognizes the potential future impacts associated with its business operations, which are directly related to greenhouse gas (GHG) emissions. Accordingly, the Company has established the Policy on Social and Environmental Responsibility regarding Greenhouse Gas Emissions (Carbon Footprint) and has implemented measures to reduce greenhouse gas (GHG) emissions in accordance with the Thailand Voluntary Emission Reduction Program (T-VER). This program aims to encourage all sectors in Thailand to participate in greenhouse gas emission reduction efforts, particularly producers and users of renewable energy.

In addition, the Company has established greenhouse gas (GHG) management strategies by promoting the use of Carbon Footprint labels on the Company's products, increasing the use of renewable energy, and implementing other significant measures as follows:

1. **Measures to Reduce Greenhouse Gas (GHG) Emissions**

- 1.1 The Company has a policy to select high-quality tools and equipment that can help reduce electricity consumption in its operations and services. Although such measures may result in higher operating costs, the Company will be able to provide services with higher standards and quality, in line with the Company's marketing strategy of delivering premium-quality services to customers.
- 1.2 The Company has a policy to provide services that contribute to global warming mitigation, including measures that directly reduce the use of air conditioning systems, which also helps conserve energy.

Supporting Documents Policy on Social and Environmental Responsibility Greenhouse Gas Emissions	Document Code: GN-CSO-026	
	Effective Date: 23/07/2024	
	Amendment No. 00	Page 2/2

The Company believes that these measures will effectively support long-term efforts to mitigate global warming and reduce greenhouse gas (GHG) emissions arising from its business operations, while also strengthening the Company's corporate image.

This Policy on Social and Environmental Responsibility regarding Greenhouse Gas Emissions was approved by the Board of Directors Meeting No. 1/2024 on 19 July 2024 and shall become effective on 23 July 2024.

Announced on 23 July 2024

(Mr. Chawalit Tippawanich)

Chairman of Board of Directors

Unique Plastic Industry Public Company Limited
